Professional Summary

Highly motivated UI/UX designer with expertise in user research, wireframing, prototyping, and animation. Skilled in crafting user-centric interfaces for both web and mobile applications, ensuring seamless user experiences across platforms.

Experience

UI/UX Design Intern at Sketchmonk   **Nov 2023 - Present**

- Leveraged user research to create user flow diagrams for websites and mobile apps, ensuring optimal user experience.
- Developed interactive prototypes and animations, refining designs based on client feedback and increasing conversion rates by 10%.
- Demonstrated strong analytical skills by effectively translating functional requirements into technical UI specifications.
- Possess expertise in both web and mobile UI design, seamlessly translating website designs for optimal mobile experience.

Python Full Stack Developer Intern at BrainOVision   **Sep 2021 - Oct 2021**

- Developed a full-stack web application using Python (Django) and HTML/CSS, solidifying proficiency in web development frameworks and front-end technologies.
- Utilized PyCharm, Python tools, and a local development environment (e.g., XAMPP) to build a user-friendly interface and connect the front-end to a database, demonstrating efficient project management and technical implementation.

Tools

- **Figma**   - **Adobe XD**

Skills

- **Wireframing**
- **Rapid Prototyping**
- **Usability Testing**
- **User Research**
- **Visual Design**
- **Interaction Design**
- **User Flows**
- **Responsive Web**
- **HTML/CSS/Javascript**

Soft Skills
